Re: ML 50575

Dear Mr. Haas:

The above numbered mineral lease for Limestone, Building Stone, expired on December 31, 2007. The Lessee no longer has any rights granted under this lease.

Pursuant to Article XVII of the terms and conditions of the lease, all personal property of Lessee, or operator of Lessee, including removable machinery, equipment, tools, buildings, and stockpiles of leased substances for which royalties have been paid must be removed from the leased premises within two months following expiration of the lease, or no later than February 29, 2008.

At the end of such period, Lessor may consider abandoned and lay claim to any or all equipment, machinery, tools, buildings, or stockpiles remaining and may remove or dispose of such items and may charge to Lessee the total costs incurred by Lessor in removing and disposing of such items plus a reasonable administrative fee.

Please be so advised and act in accordance with the terms and conditions of the lease.

Sincerely,

John T. Blake
Minerals Specialist
